

So the end of February kicked off with our Lake District Dash, the event saw 14 cars blasting up the M6 toll to Cumbria. I'll let the photos do the talking! However I would like to thank everybody that came, each & every one of you made this trip, truly unique. It was also fantastic to welcome so many new Members to our events!

Many more photos can be found on the [gallery page](#) and there are still many more still to come! We would also like to say a huge thank you to both our photographers, Khalid & Will, who both did a fantastic job! Remember our events are open to all cars and we certainly do love a good mix!

Meets and Drives: This coming Sunday we will be doing a motorway blast down to Brighton, full details will be posted on the [forum](#)! From next month onwards we will be changing the dynamics of our meets and drives hopefully improving each event.
